

Heartburn?

We have answers.

If you have heartburn twice a week or more, you may have acid reflux disease, also known as GERD (gastroesophageal reflux disease). Digestive Solutions at Southside Regional Medical Center offers an advanced, incisionless procedure that can offer lasting relief. It's a quick, effective way to achieve long-term relief without antacids or prescriptions.

In addition to GERD treatment, the skilled specialists at Digestive Solutions also provide advanced care for a comprehensive range of digestive problems. So if you have chronic heartburn or other digestive issues, don't spend the rest of your life in pain. Schedule your consultation today.

Call 804-765-5127 or visit SRMOnline.com.

Southside Regional Medical Center is directly or indirectly owned by a partnership that proudly includes physician owners, including certain members of the hospital's medical staff.
